Primary Examiner, Art Unit 1796

The following is an examiner's statement of reasons for allowance:

Firstly, the instant application is deemed to be allowable in view of appellants' remarks set forth within the Appeal Brief of October 10, 2008. With respect to the 35 USC 112, first paragraph rejection, appellants' arguments establish that support exists for the claim amendments of December 20, 2007. Specifically, appellants' remarks fully set forth where support exists for the amended language of claim 50 and 61. Furthermore, appellants' remarks in combination with the disclosure at page 10, lines 7-10 of the specification setting forth that the protective layer may be an antireflective layer provide support for the amended subject matter of claim 80. Furthermore, with respect to claim 51, appellants' remarks in conjunction with the disclosures at page 9, lines 5-7 and page 12, lines 21-25 of the specification establish that support is present for the amended subject matter. With respect to claim 52, upon further review, the examiner finds support for the amended subject matter at page 10, lines 8-11 of the specification. With respect to claims 53, 55, 60, 68, and 69, appellants' remarks establish that support is present for the amended subject matter. Furthermore, with respect to the rejection under 35 USC 112, second paragraph, appellants' remarks are adequate to establish that the referenced subject matter of claims 50 and 80 are not indefinite. Also, the cancellation of claim 94 by the amendment of August 12, 2008 renders moot the rejection of said claim under 35 USC 112, second paragraph.

Secondly, the instant claims are deemed not to be subject to a nonstatutory obviousness-type double patenting rejection over the claims of either U.S. 7,078,346 or U.S. 7,271,101, because each of the instant independent claims set forth a set of limitations, pertaining to both a layer creating destructive interference and a requirement that a graded index of refraction exists

between defined layers, that is neither set forth nor rendered obvious by the claims of U.S. 7,078,346 or U.S. 7,271,101.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to R. Sergent at telephone number (571) 272-1079.
